JEWELER'S TOUCH

Shauna Stuewe
10/12/91-2/15/06

In Loving Memory of Shauna Stuewe

We are committed to the cause of raising public awareness about the risks of Sudden Cardiac Arrest (SCA) in our children. Our mission is to promote pre-screening of our young athletes and to raise funds to provide Automated External Defibrillators (AED) in schools and other public locations promoting youth sports and athletic activities.

We also honor and remember Megan Myers, Dana Hills High School, 2007, Mitchell Cook, Canyon High School, 2013 and Morgan Wilson, Esperanza High School, 2014. All healthy local young athletes that were lost tragically to SCA.

Here

- ◇ Sudden Cardiac Arrest (SCA) is responsible more than 335,000 deaths each year. That is more than stroke, accidents and Alzheimer's disease combined.
- ◇ CPR alone has survival rates of 2% - 5%, when an automated external defibrillator (AED) is deployed and used quickly, survival rates of 50% or greater have been recorded.
- ◇ For every minute that elapses after SCA, the chances of survival diminish by 10%.
